

# CATALYST TECHNOLOGIES

**GIVES YOU THE ABILITY TO OBJECTIVELY MEASURE AND INCREASE WORKFORCE MOTIVATION** - using a dashboard-ready, single metric that translates into specific dollars saved

Within 15 minutes, our simple three step, single metric approach provides you with critical information necessary to objectively measure and reliably increase workforce motivation throughout your organization. From use, you cause an immediate increase in workforce motivation that is directly measured in dollars saved - employees are more motivated and your organization is financially healthier. Refined over 30 years, this approach is fundamental to our products and services, including:

(1) Enhancements to your Semi-Annual Reviews with a simple, single metric to ensure your employees are motivated to do good work, (2) Risk Mitigation techniques using a single metric to solve issues with precision by bringing out your team's excellence to overcome, (3) Deploying a Motivation Management System using a dashboard-ready, single metric to positively motivate your workforce to create more financial growth, and (4) Project Management Intelligence add-ins that seamlessly upgrade your existing office software to manage the various motivations of your people more directly and effectively.

Successfully used to resolve critical issues vital to maintaining US national defense, our simple measurement approach unlocks with metric precision the 3rd dimension to organizational excellence: people's capability and motivation.

Call us for a demonstration – seeing is believing!

## Seeing is believing!

DEMONSTRATIONS AVAILABLE

### ENHANCE SEMI-ANNUAL REVIEWS

Ensure your employees are motivated to do good work and take pride in what they do. Engage them using a simple, single metric that guarantees key questions are asked and answered, assuring that everyone benefits.

### MITIGATE RISKS "AT THE CORE"

Are you treating symptoms or mitigating core risks and issues? Can you objectively tell the difference? Use our single metric technique to solve the most challenging core issues with precision and speed by bringing out your team's excellence to overcome them.

### DEPLOY MOTIVATION MANAGEMENT

Use a single, dashboard-ready metric to positively motivate your workforce to create financial growth. Our easy to implement motivation management system supports your organization's need in getting your workforce more engaged at work. Manage a single metric that can significantly increase the motivation of your workforce - and the financial growth of your organization.

### GET INTELLIGENT PROJECT SUPPORT

Something significant is missing from your current project management technology that is consistently promoting cost overruns and schedule delays. Add software intelligence to seamlessly upgrade your existing office software to manage the various motivations of your people more directly and effectively.
